VOICE OF THE EXPLOSIVES INDUSTRIES

EXPLOSIVES ENGINEERING

This Month's Features:

Forging Policy Through Expertise

Characterisation & Preparation for the Demolition of an Explosives Facility

Celebrating Excellence

Exclusion Zones - A Personal View!

Is this your next step?

Do you have experience of working in Weapons, Ordnance, Munitions & Explosives (WOME) safety and are looking for new challenges, career growth and a company where you are valued?

If you answered yes, we would love to hear from you. Read on to discover our exciting opportunities and apply to join our growing team!

Frazer-Nash Consultancy Ltd is a leading engineering, systems and technology consultancy operating across defence, transport and energy markets. With a strong reputation and an impressive project portfolio, we're looking for talented people with transferable skills to help us grow further.

We have several engineering and consultancy roles available within our defence technical axis, based in locations across the UK — each offering something unique.

What will you be involved in?

We offer excellent opportunities for individuals with a background in WOME design, platform integration and safety assurance including modifications, operation, maintenance and disposal.

Recent projects include:

- Conducting a safety analysis to inform the design and development of future hypersonic capability.
- Producing safety case documentation to underwrite the operation of a Ground Based Air Defence System.
- Providing technical oversight to support strategic Naval defence capability.
- Running OME Safety Review Panels (OSRP) to provide Second Party Assurance (2PA) of inherent OME safety on behalf of UK MOD.
- The safety assurance of novel Directed Energy Weapon capability.

Could this be you?

We want to hear from you! If you are interested in applying, then send your CV to

rec1@fnc.co.uk

and one of our Talent Acquisition team will be in contact to discuss roles with you in more depth and see if your next career step is with us here at Frazer-Nash Consultancy!

Features

- 8** Building Inclusive Cultures in Engineering: Practical Strategies for Success
- 12** If you were responsible for the Defence budget for the next ten years...
- 16** Terrorism Update: a deadly mix
- 26** Forging Policy Through Expertise
- 29** Characterisation & Preparation for the Demolition of an Explosives Facility
- 30** Celebrating Excellence
- 32** Exclusion Zones- A Personal View!

DISCLAIMER: The opinions expressed in Explosives Engineering are those of the authors concerned. They do not necessarily represent the views of the Institute.

Front Cover: "SAFEDEM demolish Rosemount Flats Glasgow with an exclusion zone that touched the M8 hard shoulder".

Inside this issue read John Woodward's personal view on exclusion zones.
