
Overview

This standard exists in a test and evaluation role and covers the competences you need to contribute to the tasks involved in the test and evaluation of explosive substances.

You will be required to demonstrate that you can confirm that you have the correct test plan, confirm that the correct explosive substances and or articles have been selected, in accordance with approved procedures and practices.

This activity is likely to be undertaken by someone whose work role involves Ordnance, Munitions or Explosives work activities. This includes people working as test and evaluation and general explosives operators/operatives

This standard replaces COGESA3.16.

Performance criteria

You must be able to:

- P1 work safely at all times, complying with health and safety, environmental and other relevant regulations, legislation and guideline
- P2 confirm that you have the correct test plan
- P3 carry out pre-task checks as directed
- P4 use the equipment, consumables and services correctly during the task
- P5 confirm that the correct explosive substances and or articles have been selected
- P6 protect explosive substances and or articles from all forms of contamination and/or damage
- P7 identify and label explosive substances and or articles, according to the plan
- P8 ensure that the controlled conditions are as specified in the test plan
- P9 record data and information as directed
- P10 adhere to the relevant quality standards
- P11 maintain the requirements of confidentiality at all times
- P12 report problems beyond your level of authority to the appropriate person

Knowledge and understanding

You need to know and understand:

- K1 the health, safety and environmental and other statutory legislation, regulations, safe working practices and procedures governing explosives and their implications for your area of work
- K2 the relevance of personal protective equipment (PPE)
- K3 the nature, characteristics, hazards and risks of the explosive substance and or article
- K4 the actions to be taken in response to an unplanned event
- K5 the nature of other hazardous materials with which you are working
- K6 the test plan and procedures and your role in them
- K7 the expected outcomes of the task
- K8 the roles and responsibilities of team members
- K9 the equipment, consumables and services needed to complete the task
- K10 how to use the equipment
- K11 types of labelling used
- K12 the consequences of incorrect adverse conditions
- K13 the consequences of taking wrong actions
- K14 the importance of adhering to clear instructions and of seeking clarification when necessary
- K15 reporting lines and procedures
- K16 the relevant quality standards and compliance regime
- K17 your own level of responsibility and competence
- K18 the documentation requirements
- K19 any confidentiality requirements

COGESAKR3.11

Contribute to the test and evaluation of explosive substances and/or articles

Scope/range

These standards may be limited by the following;

1. Resources: equipment; consumables; services; work environment

Glossary

Operator/Operative (contributor): undertakes tasks in accordance with policy, process and procedure.

Test: a critical examination of one or more properties or characteristics of a material, product or set of objectives with predicted outcomes.

COGESAKR3.11

Contribute to the test and evaluation of explosive substances and/or articles

Developed by	Cogent
Version Number	3
Date Approved	30 Apr 2024
Indicative Review Date	30 Mar 2029
Validity	Current
Status	Original
Originating Organisation	Cogent Skills
Original URN	This standard replaces COGESAKR3.16.
Relevant Occupations	Engineering and Manufacturing Technologies, Process, Plant and Machine Operatives, Science and Engineering Technicians, Science and Mathematics Science
Suite	Explosive Substances and Articles: Test and Evaluation
Keywords	Contribute, test, evaluation, explosives, health and safety, statutory legislation, regulations, practices
